How to Join a Section Community

Each GSA section has its own community on GSA Connect to share information and resources. Members who select a section as either their primary or secondary are automatically added to that section’s community. GSA members of other sections can choose to add themselves to any of the section communities that are not either their primary or secondary section.

Follow the steps below to add yourself to a section community.

1. Login to GSA Connect
2. Click “Communities” on the top blue tool bar
   ○ Select “All Communities” from the drop-down menu
3. Scroll down the list to find the section community you would like to join
4. Click on the JOIN button located on the right-hand side of the screen
   ○ If you do not see a JOIN button, you are already a member of this community (you are automatically added to your primary and secondary section communities)

Note: Joining interest groups is done through your GSA account that you access at www.geron.org. Here is a tutorial on how to join an interest group.
