How to Unhide Yourself on GSA Connect

A main benefit of GSA Connect is the membership directory where GSA members and staff can search for members by criteria, such as having a specific area of expertise, working at a particular organization or living in a certain city. This is helpful in a variety of ways including networking and connecting locally, identifying potential collaborators on a project, finding subject experts to respond to press inquiries or locating a member who could provide information on topic.

To take advantage of these opportunities, your GSA Connect profile needs to be accessible. In other words, you don’t want to be a “Hidden Member”.

Many members don’t realize they are hidden. Take a minute to check by following these simple steps and if you are hidden, it just takes a click of the mouse to unhide yourself.

How to Check if You are Hidden

- Log in at www.geron.org
- Click on “My Account” (upper right hand corner)
- Select “Member Services” from the drop down menu (this takes you to your Member Dashboard).
- Under the “My Account” section in the dashboard select “Update My Profile.”
- Scroll down to “Directory Information” and click the plus sign to open the section.
- You will see a small box with a note: “This information will appear in the online directory. Check here if you do not want to be included in the online directory and other online listings.”
- If the box is checked, you are hidden.

How to Unhide Yourself

- Uncheck the box
- Scroll down to the bottom of the page, and click “Update Profile.”

Please keep in mind that GSA Connect can only be accessed by other GSA members, not the public, and cannot be used for external solicitations.
