The mouth is critically important to speech, chewing, swallowing, and digestion as well as to one’s appearance. Good oral health is an essential part of healthy aging. Learn more: [http://bit.ly/GSAOralHealth](http://bit.ly/GSAOralHealth) [infographic image]

We are joining @geronsociety and other organizations to promote the importance of good oral health with the help of an interprofessional care team. Read more about this collaboration here: [http://bit.ly/GSAOralHealth](http://bit.ly/GSAOralHealth) [infographic image]

Among Americans older than 65 years of age, 70% have periodontal disease, meaning relating to the gums or around the teeth. Good oral health is an essential part of healthy aging. [http://bit.ly/GSAOralHealth](http://bit.ly/GSAOralHealth) [infographic image]
